CALL FOR PAPERS FOR THE BIENNIAL CONFERENCE OF THE COMMONWEALTH COUNCIL FOR EDUCATIONAL ADMINISTRATION AND MANAGEMENT and the MALAYSIAN SOCIETY OF EDUCATIONAL ADMINISTRATION AND MANAGEMENT

The CCEAM Board invites you to our 50th anniversary conference which will be held in
KUALA LUMPUR, MALAYSIA SEPTEMBER 1 – 4, 2020

Theme: Educational Leadership for Sustainable Development and Global Citizenship

The 2020 Conference theme is an appropriate one to mark the 70th anniversary of the Commonwealth and the 50th anniversary of CCEAM itself. It recognizes the importance of educational leadership, both formal and informal, from pre-school to higher education, in creating awareness of the importance of sustainable development and global citizenship. The conference offers an opportunity for scholars from around the world, from developed and developing countries to share research and educational innovation that relates to theories of educational leadership, as well as the preparation and/or practice of educational leaders in various venues including Pre-K-12, higher education, non-profit and non-governmental agencies.

The Conference:

The conference itself will include opportunities for networking, school visits, workshops and academic papers and symposia. Keynote speakers will include:

Dato' Seri Zaini Ujang, Malaysia, Former Vice-Chancellor of UTM (2008 - 2013)

Dato' Seri Zaini Ujang is an academic administrator, environmental engineer and scientist who attempts to blend knowledge, skills, experience and innovation in a harmonious manner. As Secretary-General of the Higher Education Ministry, he led the direction of the 2015-2025 Education Development Plan (Higher Education) with a variety of innovations and transformations Education Development Plan in terms of ecosystem, governance and funding of higher education institutions.

As Vice-Chancellor of Universiti Teknologi Malaysia (UTM) from 2008-2013, he introduced the new academia as his brainchild, and transformed UTM into the first local university to have more than 50% of graduate students, especially in Science and Technology. He was also the first recipient of the Merdeka Award distinguished academic achievement in 2009.

Topic: Ecoshift in Education: From Policy Framework to Cultural Transformation.
